

Why Track Inventory by Hand When SureTrack RFID Gives You Total, Real-Time Visibility?

www.suresolutions.in

Deki Electronics is India's largest manufacturer of film capacitors, we ranked as the third largest electronic component manufacturer in the country by EB Times. Since our founding in 1984, we've maintained a steady annual growth, becoming a leading player in the electronics manufacturing industry.

Manufacturing Excellence

Our state-of-the-art facility in Noida (NCR Delhi) has an annual capacity of 1.2 billion capacitors, reflecting our commitment to high-quality production. The Deki team, comprising over 650+ dedicated members, is driven by a shared vision to be a "company that makes India proud."

Innovation and Customer Focus

We are an innovative, customer-driven organization. Our R&D center, approved by the Department of Scientific and Industrial Research (Government of India), is instrumental in developing new products that generate 25% of our sales. We also provide top-notch application engineering support to our 300+ customers worldwide.

Quality and Certifications

Deki's systems and processes are certified to meet international standards, including TS 16949:2000, ISO 9001:2008, ISO 14001:2004, and OHSAS 18001:2007, ensuring consistent quality and safety.

Empowering Leadership

Our "shared ownership" culture, rooted in open, transparent, and participative management, fosters leadership development at all levels. This bottom-up approach energizes our team and contributes to our sustained success in the global marketplace.

Industry Leadership

Deki actively contributes to policy advocacy to transform India into a globally competitive manufacturing destination. Our Managing Director, Mr. Vinod Sharma, has held prominent positions, including President of ELCINA, Chairman of ESC, and Chairman of the CII National ICTE Committee.

Looking Ahead As we continue to grow, we're exploring new opportunities in other electronic components and innovative products. We're excited to leverage our experience and expertise to meet the evolving needs of the electronics industry.

INDUSTRIES WE SERVE

One RFID Partner for Smarter Visibility

Across retail, manufacturing, warehouse, logistics, healthcare and security, SureTrack brings item-level tracking, automation and real-time data to your operations.

Retail

Item-level stock accuracy, fewer losses and faster checkout.

Manufacturing

Tools, assets and vehicles tracked across the plant floor.

Warehouse & Logistics

Automated receiving, dispatch and supply-chain visibility.

Healthcare, Pharma & Institutional

Safety, compliance and traceability in critical environments.

Security & Specialized Tracking

Controlled access and accountability for high-value assets.

RFID Solutions for Retail

Smart tracking solutions designed for stock visibility, asset control and faster store operations.

Item-Level Accuracy | Faster Audits | Reduced Shrinkage

RFID Store & Inventory Management

Real-time stock visibility, faster cycle counts and better replenishment.

RFID Jewellery Tracking

Secure high-value inventory, reduce shrinkage and speed up billing.

Fixed Asset Tracking

Track store equipment, displays and movable assets with audit-ready visibility.

RFID File Tracking

Manage store records, invoices and documents with faster retrieval.

RFID Solutions for Manufacturing

Smart tracking solutions designed for tool control, asset visibility and faster plant operations.

Fewer Lost Tools | Audit-Ready Assets | Automated Gate-In / Gate-Out

RFID Tool Tracking

Prevent tool loss, improve accountability and schedule maintenance.

Fixed Asset Tracking

Monitor machinery, equipment and lifecycle compliance across the plant.

Unmanned Weighbridge System

Automate vehicle identification, weight capture and data logging.

RFID Tire Management

Track tires, monitor lifecycle and improve fleet inventory visibility.

RFID Solutions for Warehouse & Logistics

Smart tracking solutions designed for stock visibility, faster dispatch and automated supply-chain movement.

Faster Receiving | Real-Time Stock Visibility | Automated Cycle Counts

RFID Tire Management

Improve fleet tire visibility, lifecycle planning and loss control.

Fixed Asset Tracking

Track pallets, containers, equipment and returnable assets.

Unmanned Weighbridge System

Reduce manual entry and speed up secure vehicle processing.

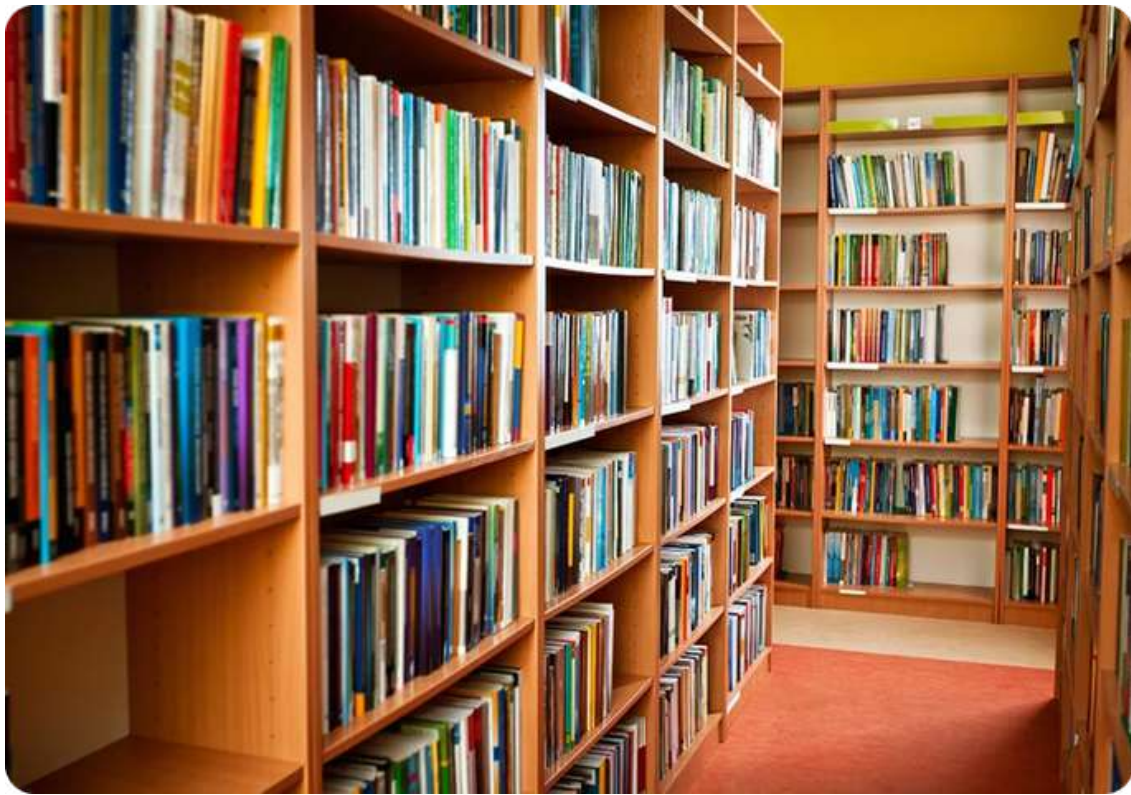

RFID Warehouse Management

Improve inventory accuracy, automate audits and speed up fulfillment.

RFID Solutions for Healthcare, Pharma, Laundry & Library

Smart tracking solutions designed for safety, compliance, traceability and faster retrieval in critical environments.

Compliance | Fewer Losses | Faster Retrieval

RFID Library Automation

Simplify book circulation, quick audits and theft prevention.

RFID File Tracking

Prevent document misplacement and enable faster record retrieval.

RFID Laundry Management

Track linen and garments, reduce losses and improve turnaround time.

RFID Healthcare & Pharmaceutical

Support drug authentication, equipment tracking and compliance monitoring.

RFID Solutions for Security & Specialized Tracking

Smart tracking solutions designed for controlled access, accountability and secure monitoring of high-value or sensitive assets.

Controlled Access | Full Accountability | Movement History

RFID Weapon Tracking

Ensure controlled access, real-time issue/return monitoring and accountability.

RFID Tool Tracking

Track critical tools, prevent unauthorized movement and reduce loss.

RFID File Tracking

Secure sensitive records with traceable movement history.

Fixed Asset Tracking

Maintain visibility of critical equipment, devices and controlled assets.

RFID Products & Hardware

Field-Proven RFID Hardware

A complete reader-to-software stack for item-level tracking, automation and real-time visibility.

Handheld RFID Reader

Fixed RFID Reader

Android Mobile Computer

Long Range Scanner

Vision Scanner

RFID Gates

RFID UHF Antenna

RFID Printer / Encoder

RFID Tags for Every Application

The Right Tag for Every Surface

From apparel labels to rugged on-metal and special tags, SureTrack matches the tag to your application.

RFID Label

Hang Tag

Laundry Tag

Taffeta Tag

Hard Tag

Jewellery Tag

Combo Tag

Asset Tag

We Also Offer Other Solutions

Electronic Article Surveillance

Our EAS uses contactless technology for enhanced security, ideal for various retail outlets.

Smart Counting & AI Analytics

SureCount Magna counts footfall with web reports. SureCount AI turns CCTV into actionable insights.

EAS Tags

Made in India, these high-quality, easy-to-apply sensor tags protect merchandise and ensure a seamless customer experience.

Electronic Shelf Labels (ESL)

This is a display system that replaces traditional paper labels on the shelf.

Wet Tissue Dispenser

SureFresh Wet Towel Rolls: 100% plant fiber, super soft, and highly absorbent for gentle, effective cleaning and freshness.
